PROFILE

Aspiring Data Analyst and Web Developer with hands-on experience in HTML5, CSS3, JavaScript, SQL, Python, Tableau, and Power BI. Proven ability to build interactive web applications and derive actionable insights from data through real-world projects and internships. Published research in data visualization. Seeking a fresher role to contribute across data analytics and web development.

EDUCATION

B. Tech – INFORMATION TECHNOLOGY

2023-2027

Prasad V Potluri Siddhartha Institute of Technology

CGPA: 8.14

SKILLS

Languages: C, Java, Python

Database: SQL

Front-end: HTML5, CSS3, JavaScript

Data visualization: Tableau, Power BI

Methodologies & Architectures: Waterfall, Agile

Version Control: Git, GitHub

PROJECTS

Recruitment Analysis in IT Sector Using Tableau | Research Paper Published – IRJMETs, Volume 07, Issue06 | Tools: Excel, Tableau

- Analyzed 14 years of recruitment data across Indian IT hubs.
- Cleaned and transformed data to identify hiring trends and skill demand.
- Built interactive Tableau dashboards for year-wise and skill-based analysis.

Advanced To-Do App | [Live Demo](#) | Technologies: HTML, CSS, JavaScript, GitHub Pages

- Developed a responsive and interactive To-Do web application with task creation, editing, deletion, and search functionality.
- Implemented dark mode, task statistics, and Local Storage support for persistent task management.
- Deployed the application using GitHub Pages and maintained the project through GitHub repository management.

Food Trends: Understanding Customer Preferences on Facebook | Tools: Excel, Power BI

- Analyzed Facebook engagement data related to food trends.
- Cleaned and structured datasets for analysis.
- Designed Power BI dashboards to visualize customer preferences.
- Generated insights to support marketing decisions.

INTERNSHIPS

AICTE EduSkills — AI & ML Virtual Internship | Jul 2025 – Sep 2025

Completed 10-week virtual internship on AI & ML concepts, supported by Google for Developers

Infosys Springboard — Data Visualization Intern | Dec 2025 – Feb 2026

Analyzed food trends and built Power BI dashboards for customer preference insights.
